

---

*Dear Fellow Hibernators,*

*While it may seem that the earth is slumbering underneath its winter mantle of snow and chill, many have been stirring among your Wawenock staff and board. The recent newsletter will give you an update on Cassie and ME's activities here and afield and Greg is busy making sure the equipment is ready to go.*

*Your early membership greatly helps with all the work and purchasing that goes on long before that first blade of grass springs up. Rather than waiting to join in April or May, please know that your joining early contributes an added benefit for Wawenock.*

*Keep in touch when you can - Cassie and the Board always welcome your news, photos, comments, and musings about this most compelling game on this most fabulous piece of earth (sleeping though it might be)!*

*Best wishes,  
Peter*

*Board of Trustees*
